

A large, stylized water droplet is the central focus of the image. It is rendered in various shades of blue, from light to dark, with a bright white highlight at the top, giving it a three-dimensional appearance. The background is a solid, medium blue. The text is positioned in the upper right and lower center of the frame.

# Free Water Saving Kits

*Another  
Opportunity  
to Save Water  
and Reduce  
Wastewater  
Flows*

# Free Water Saving Kits

*Sewer customers  
of Lacey, Olympia,  
and Tumwater can  
save water and reduce  
household wastewater  
flows by installing the  
contents of a FREE  
Water Saving Kit.*

## **Each Water Saving Kit includes:**

- Low-flow showerhead
- Kitchen faucet aerator
- Bathroom faucet aerator
- Toilet leak detection tablets
- Teflon plumbers tape
- Installation instructions

**It's easy for sewer customers to get involved in this important community effort. To receive your FREE Water Saving Kit contact your City today:**

### **Lacey Sewer Customers**

Pickup your Water Saving Kit at the Public Works counter at Lacey City Hall. For more information, call (360) 438-2687.

### **Olympia Sewer Customers**

To request your Water Saving Kit, call the Water Conservation Request Line at (360) 753-4444, ext. 8390.

### **Tumwater Sewer Customers**

Pickup your Water Saving Kit at the Public Works counter, downstairs at the Tumwater City Hall. For more information, call (360) 754-4140.

**Here are other ways you can save water and help solve our communities' wastewater challenges:**

- Install a water-efficient toilet.
- Purchase a resource-efficient washing machine, and receive a \$100 rebate.
- Fix leaky faucets and toilets.
- Retrofit your business with water-efficient fixtures and equipment, and receive a WaterSmart rebate of up to 75%.
