Board of Directors
LOTT Clean Water Alliance
500 Adams St NE
Olympia, WA 98501

June 26, 2018

I am pleased to present the Comprehensive Annual Financial Report (CAFR) of the LOTT Clean Water Alliance (the Alliance) for the year ended December 31, 2017.

This CAFR is prepared in accordance with generally accepted accounting principles, and the Alliance's management is responsible for the contents of this report. To meet this responsibility, the Alliance's management has established a comprehensive internal control framework that is designed to both protect assets from loss, theft or misuse and to compile sufficient, reliable information for the preparation of the financial statements. As with any effective and efficient system of controls, the Alliance's internal controls have been designed to provide reasonable assurance that assets are safeguarded and the financial statements are free of material misstatements. Since the cost of a control should not exceed the benefits derived, the objective of these controls is to provide reasonable, rather than absolute assurance, that the financial statements are free of material misstatements. To the best of my knowledge and belief, the financial statements contained herein are accurate in all material respects and reported in conformity with generally accepted accounting principles. I am also pleased to report, once again, the Alliance has received an unmodified opinion on its financial statements for the year ended December 31, 2017.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Alliance for our comprehensive annual financial report for the fiscal year ended December 31, 2016. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Programs requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

About the Alliance

When the idea for a regional wastewater utility was first put in place, the wastewater treatment plant provided only primary treatment. By 1983, secondary treatment was added and, in 1994, nitrogen removal and ultraviolet disinfection followed. As the local communities continued to grow, it became clear that planning for future wastewater treatment capacity was needed. In 1998, the Partners completed a long-range public planning process that resulted in the 20-year LOTT Wastewater Resource Management Plan, with major focus on production and distribution of reclaimed water. Reclaimed water production became a reality in 2005, with the completion of the Budd Inlet Reclaimed Water Plant. For the first time in LOTT's 30-year history, a product, Class A Reclaimed Water, was sent back out into the community for beneficial reuse.

In 2010, with the completion of the Regional Services Center and the WET Science Center, all our staff are based at the same location. The WET Science Center has provided a unique and important opportunity for our staff to further educate our community on the benefit of water conservation and LOTT's role in the community.

The Alliance's name has also been modified over the years and 2010 saw another change which recognized LOTT's evolution. During 2010, the Alliance officially changed its name to the "LOTT Clean Water Alliance" to provide clarity of LOTT's mission and to recognize the important role reclaimed water plays in our community.

Today, the Alliance owns and operates physical facilities in all four partner jurisdictions. These facilities have a net book value of approximately \$226 million and an estimated replacement value of approximately \$750

million, and include the Budd Inlet Treatment Plant, Budd Inlet Reclaimed Water Plant, Martin Way Reclaimed Water Plant, three pump stations (Capitol Lake, Martin Way and Kaiser Road), a Southern Connection Control Structure and 23 miles of main sewer interceptor pipelines.

Factors Affecting Financial Condition

LOTT’s overall financial position has improved and we are continuing to see growth in the system. In 2017, approximately 1300 new connections were made to LOTT’s system, which is a 31% increase from 2016. This demonstrates how difficult to predict growth in the short term and why we are continuing to take a conservative approach to growth, insofar as revenue is concerned. We are estimating approximately 1000 new connections for 2018. If we continue to see a consistent increase in growth, we will adjust our estimates accordingly.

LOTT tracks two measures of inflation, the Consumer Price Index and the Producer Price Index. Both of these indexes saw stable growth during 2017 and the planned increases for the Wastewater Service Charge and the Capacity Development Charge should be sufficient for 2018. For more detailed information regarding the Alliance’s financial condition, please refer to the Management’s Discussion and Analysis on page 10.

Long Term Planning

Early on, rate payers made it clear that growth should pay for growth. In keeping with this mantra, LOTT constructs new facilities to accommodate growth on a “just in time” basis rather than build one large plant at a tremendous up-front cost. This concept relied on the steady development of smaller satellite reclaimed water plants to add capacity to the system.

To meet this need, the Alliance’s Board has approved a Capital Improvement Plan consisting of projects identified for construction through the year 2053. In the next six years, more than \$51 million in new investments to the Budd Inlet Treatment Plant are planned and expected to be financed through a combination of connection charges, monthly charges, and debt.

Acknowledgements

This report would not have been possible without the hard work of the Finance Division staff: Katie Kappert, Angelea Miller, Natalie Windle, Farah Derosier and Robin Spencer. Additionally, Gordon Glasgow, CPA from Preszler, Larner, Mertz and Co. provided much appreciated assistance and guidance.

Acknowledgment is also made to the Washington State Auditor’s Office for their timely completion of our audit and CAFR review and Darren Bennett at Thurston County for information used in the Statistical Section.

In addition, I wish to extend my appreciation to Tyle Zuchowski and Karen Tuomey who provided information used in this report.

Finally, special appreciation goes to the Board of Directors and to the Executive Director for their leadership and support.

Respectfully Submitted,

Justin Long, CPA, CGFM

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS

June 26, 2018

Board of Directors
LOTT Clean Water Alliance
Olympia, Washington

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the LOTT Clean Water Alliance, Thurston County, Washington, as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the Alliance's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or

error. In making those risk assessments, the auditor considers internal control relevant to the Alliance's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Alliance's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the LOTT Clean Water Alliance, as of December 31, 2017, and the changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

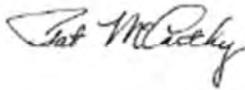

Our audit was conducted for the sole purpose of forming an opinion on the financial statements that collectively comprise the Alliance's basic financial statements as a whole. The Introductory and Statistical Section is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Alliance. Such information has not been subjected to the auditing procedures

applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we will also issue our report dated June 26, 2018, on our consideration of the Alliance's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Alliance's internal control over financial reporting and compliance.

Sincerely,

Pat McCarthy
State Auditor
Olympia, WA

Management's Discussion and Analysis

The following discussion and analysis of the financial performance of the LOTT Clean Water Alliance (the Alliance) provides an overall review of the Alliance's financial activities for the year ended December 31, 2017. This discussion is designed to be read in conjunction with the financial statements and notes, which follow this section.

FINANCIAL HIGHLIGHTS

The LOTT Clean Water Alliance was incorporated on April 17, 2000 and operates under the laws of the State of Washington and applicable to 501(c)(3) corporations. All financial reporting is based on twelve months of operations. Key financial highlights for fiscal year 2017 are:

- The Wastewater Service Charge (WSC) increased to \$37.88 in 2017. In August 2017, the Board of Directors voted to increase the Wastewater Service Charge to \$38.64 per month for 2018. The Board will set the rate for 2019 in the fall of 2018.
- The Capacity Development Charge (CDC) increased to \$5,579.31 for 2017. This charge covers the cost to increase capacity of the system to accommodate new growth in the Alliance's service area. Each year, the capacity development charge is increased \$64.10 through the year 2019. In August 2017, the Board of Directors voted to increase the Capacity Development Charge to \$5,810.79 for 2018. The Board will set the rate for 2019 in the fall of 2018.

In 2017, the Alliance had a positive cash flow from operating activities and met all debt obligations. A negative cash flow from Capital and Related Financing Activities was largely the result of using cash on hand to finance construction projects. As of December 31, 2017, the Alliance had an unrestricted net position balance of \$34,933,249. Of this total, approximately \$10.6 million is set aside to pay operational and capital costs in the event of an emergency, with the remainder slated for debt reduction, future capital improvements and system upgrades.

OVERVIEW OF THE FINANCIAL STATEMENTS

This section of the annual report explains the purpose of the Alliance’s basic financial statements and the notes to the financial statements.

Basic Financial Statements

The financial statements of the Alliance are designed to provide readers with a broad overview of the Alliance’s finances similar to a private-sector business. They have been prepared using the accrual basis of accounting in accordance with generally accepted accounting principles. Under this basis of accounting, revenues are recognized in the period in which they are earned and expenses are recognized in the period in which they are incurred, regardless of the timing of related cash flows. These statements offer short and long-term financial information about the Alliance’s activities.

The Statement of Net Position presents the Alliance’s assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is reported as Net Position (equity). The Statement of Net Position provides information about the nature and amount of investments in resources (assets), and the obligations to creditors (liabilities). Net Position increases when revenues exceed expenses. The Statement of Revenues, Expenses, and Changes in Fund Net Position reports the revenues and expenses during the periods indicated. The Statement of Cash Flows provides information about the Alliance’s cash receipts and payments for operations, as well as funds provided and used in investing and financing activities.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to gain a full understanding of the figures provided in the financial statements.

Interest Expense	\$ 1,892,377	\$ 2,215,391
Total Non Operating Expenses	1,892,377	2,215,391
Total Expenses	\$ 27,077,741	\$ 28,118,602
Excess (Deficiency)	\$ 7,284,078	\$ 8,813,953
Net Position - Beginning of Year	\$ 172,849,810	\$ 164,035,858
Change in Net Position	\$ 7,284,078	\$ 8,813,953
Net Position - End of Year	\$ 180,133,889	\$ 172,849,810

For the twelve months ending December 31, 2017, the total assets of the Alliance increased by approximately \$0.6 million or 0.23% and total liabilities decreased by approximately \$8.0 million or 8%. Total Net Position increased approximately \$7.3 million, and the Alliance's overall financial position improved. The increase in total assets is primarily due to continued investment in new capital assets funded by charges for services. The decrease in total liabilities is primarily due to scheduled payments of long-term debt.

Operating revenue increased approximately 3% primarily due to the continued growth in the Alliance's service area and planned increases in rates. This trend is expected to continue through the next reporting period.

The Capacity Development Charge represents the fee charged for new customers to LOTT's system. Revenue from this charge, before rebates, decreased approximately 28%, primarily due to a higher than normal rate of new connections in 2016. New connections in 2017 returned to nearer the recent historical average. The total number of new connections to the system decreased by 31% and the connection charge increased by approximately 4.2%.

For both the Wastewater Service Charge and the Capacity Development Charge, it is management's intention to propose rate structures which ensure rates are sufficient to keep pace with inflation.

Notwithstanding the higher than normal rate of connections for 2016, the rate of new connections in LOTT's service area had been reasonably consistent since 2008. At this time, management will continue to take a conservative approach to estimating new connections for revenue purposes. Approximately 1000 new connections are expected in 2018.

Total Operating Expenses decreased approximately 3% due to a greater number of expenses being eligible for capitalization than was the case in 2016.

With the exception of the items in Note 1e in the Notes to the Financial Statements, there are no restrictions, commitments or other limitations which may affect the availability of resources for future use.

Capital Assets

The Alliance had a total net Capital Asset Value of \$226 million as of December 31, 2017. This was an increase of approximately \$2.8 million and is primarily due to the Sludge Dewatering Project construction. Capital Assets consisted of \$44 million in assets not being depreciated including land and construction in process and \$309 million in depreciable assets with a total accumulated depreciation of \$126 million.

Please refer to Note 3 and 4 in the Notes to the Financial Statements for more information.

Long-term Debt

The Alliance currently has the following long term debt:

- A revenue bond issued in 2011. This bond refunded the Alliance's 2002 revenue bond and a 1992 loan from the Washington State Department of Ecology, as well as provided funds for various projects in the Alliance's capital improvement plan. This is a 20 year bond with coupon rates ranging from 2.0% to 5.0% and a true interest cost of approximately 3.16%. Bond covenants require approximately \$2.8 million in cash reserves. The Alliance makes semi-annual payments, which range from \$0.3 to \$3.3 million.
- A Department of Ecology State Revolving Fund Loan to construct new primary sedimentation tanks. This is a 20 year loan with a 2.6% interest rate and semi-annual payments of \$1,245,972. The Alliance's agreement with the Department of Ecology states that one year's payment be kept in a restricted account which may be accumulated over the first five years of the loan's repayment in approximately equal annual payments. As of December 31, 2017, the Alliance has deposited \$1,993,556 to a restricted account as required by the loan agreement.
- A Department of Ecology State Revolving Fund Loan, to construct the Martin Way Reclaimed Water Plant in 2004. This is a 20 year loan with a 1.5% interest rate and semi-annual payments of \$919,149. As of December 31, 2017, the Alliance has \$1,838,298 in a restricted account as required by the loan agreement.
- A Washington State Revolving Fund Loan made as part of the American Reinvestment and Recovery Act to construct a reclaimed water line to Tumwater. This is a 20 year loan with a 2.9% interest rate and semi-annual payments in the amount of \$36,972. As of December 31, 2017, the Alliance has \$73,944 in a restricted account as required by the loan agreement.
- A Washington State Public Works Trust Fund loan for construction of new primary sedimentation tanks. This is a 20 year loan with a 0.5% interest rate and annual payments ranging from \$549,559 to \$567,375.

- A Washington State Public Works Trust Fund Loan issued in March 2005, for the upgrade of the Budd Inlet Treatment Plant Secondary Clarifiers. This is a 20 year loan with a 0.5% interest rate and annual payments ranging from \$230,077 to \$238,089.
- A Washington State Public Works Trust Fund Loan issued in 2008 for construction of the Kaiser Road Pump Station and Kaiser Road Forcemain replacement. This is a 20 year loan with a 0.5% interest rate and annual payments ranging from \$200,587 to \$210,567.
- A Department of Ecology State Revolving Fund Loan to construct a reclaimed water storage tank. This is a 20 year loan with a 2.6% interest rate and semi-annual payments of \$146,099. As of December 31, 2017, the Alliance has \$116,879 in a restricted account as required by the loan agreement.

Please refer to Note 5 in the Notes to the Financial Statements for more information.

REQUESTS FOR INFORMATION

Cash and Cash Equivalents at End of Year	\$ 48,261,526

The accompanying notes are an integral part of these financial statements.

Statement of Cash Flows - Page 2 of 2
For the Year Ended December 31, 2017

**Reconciliation of Operating Income (Loss) to Net Cash Provided
 by Operating Activities:**

	2017
Operating Income	\$ 3,046,052
<u>Adjustments:</u>	
Depreciation	\$ 8,086,598
Changes in Operating Assets and Liabilities:	
Receivables (Net)	790,787
Accounts Payable	792,122
Wages and Benefits Payables	(772,135)
Compensated Absences Payable	99,198
Total Changes in Operating Assets and Liabilities	\$ 909,972
Total Adjustments	\$ 8,996,569
Net Cash Provided by Operating Activities	\$ 12,042,622
 Noncash Investing, Capital or Financing Transactions:	
Change in Deferred Amount on Refunding	\$ 42,914
Change in Unamortized Bond Premium	(136,002)
Total Noncash Investing, Capital or Financing Transactions	\$ (93,087)

The accompanying notes are an integral part of these financial statements.

Notes to the Financial Statements For the Year Ended December 31, 2017

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the LOTT Clean Water Alliance (the Alliance) conform to generally accepted accounting principles (GAAP) as applicable to proprietary funds of governments. GASB is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the most significant policies:

a. Reporting Entity

The Alliance was incorporated on April 17, 2000 and operates under the laws of the State of Washington applicable to 501(c)(3) corporations. The Alliance is recognized as a governmental organization and was formed under the Inter-local Cooperation Act (RCW 39.34).

b. Basis of Accounting and Presentation

The accounting records of the Alliance are maintained in accordance with methods prescribed by the State Auditor under the authority of RCW 43.09.

The Alliance’s statements are reported using the economic resources measurement focus and full-accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of the cash flows.

The Alliance distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the Alliance’s ongoing operations. The principal operating revenues of the Alliance is the Wastewater Service Charge. Operating expenses for the Alliance include the costs associated with conveying and treating wastewater. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. Capital asset purchases are capitalized and unbilled utility service receivables are recorded at year-end. Gains and losses from the disposal of capital assets are excluded from operating income.

c. Cash and Cash Equivalents

For purposes of the statement of cash flows, the Alliance considers all highly liquid investments including restricted assets with a maturity of three months or less when purchased to be cash equivalents.

d. Capital Assets and Depreciation

See Note 3.

e. Restricted Assets

In accordance with bond resolutions and other agreements, separate accounts have been established for restricted- or limited-use funds. The assets held in these accounts are limited as to use for their respective debt service reserve requirements, and are as follows:

Item	Amount
Primary Sedimentation Tank SRF Loan	\$ 1,993,556
2011 Revenue Bond	2,842,182
Hawks Prairie SRF Loan	1,838,298
Deschutes Parkway SRF Loan	73,944
Reclaimed Water Tank SRF Loan	116,879
Total	\$ 6,864,859

f. Receivables
 Customer accounts receivable consist of amounts owed from private individuals or organizations for goods and services including amounts owed for which billings have not been prepared. Receivables have been reported net of estimated uncollectible accounts.

g. Investments
 See Note 2.

h. Compensated Absences
 Vacation leave may be accumulated up to 480 hours for all employees and is payable upon separation. The liability for unpaid vacation leave as of December 31, 2017 was \$547,195.

Comp time earned in place of overtime can accrue up to 120 hours for eligible independent and represented non-exempt employees. This bank is payable upon separation or at any time the employee requests it. The liability for unpaid comp time as of December 31, 2017 is \$21,086.

Sick leave may accumulate up to 960 hours for all employees and is payable to employees upon retirement, up to 120 hours. Ninety percent of the value of any remaining sick leave is deposited into a healthcare reimbursement account (HRA) through a voluntary employee beneficiary association (VEBA) and ten percent is deposited into the shared leave account per the Alliance’s Administrative Guidelines. Upon non-retirement separation, the entire value of an employee’s unused sick leave is deposited into the shared leave account per the Alliance’s Administrative Guidelines. The liability for unpaid sick leave as of December 31, 2017 is \$798,382 and the balance in the shared leave account is estimated to be \$318,080.

Employees earned \$915,239 and used \$786,245 in compensated absences during 2017. The total liability for compensated absences as of December 31, 2016 and 2017 was \$1,555,749 and \$1,684,743, respectively. Management estimates \$851,436 of total compensated absences will be due within one year of the date of the Statement of Net Position.

i. Pensions
 For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of all state sponsored pension plans and additions to/deductions from those plans’ fiduciary net position have been determined on the same basis as they are reported by the Washington State Department of Retirement Systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

j. Reserved Funds
 In June 2007, the Alliance Board of Directors approved resolutions to establish emergency cash reserves. In 2013, the Board adopted metrics which required the operation reserve to be indexed to six months of operating expenses. However, when setting the 2017 through 2018 Budget, the Board of Directors chose to forgo additional transfers into the reserve account in an effort to minimize rate increases. These reserves are intended to keep the utility in operation in the event of cash flow disruptions that can occur due to natural or man-made catastrophes. The Alliance’s emergency reserves are as follows:

<u>Type</u>	<u>Amount</u>
Emergency Capital Reserve	3,000,000
Emergency Operations Reserve	7,563,692
Total	<u>\$10,563,692</u>

NOTE 2 - DEPOSITS AND INVESTMENTS

All deposits and investments of the Alliance are held with the Thurston County Treasurer in the Thurston County Investment Pool (TCIP). Deposits and investments with the County Treasurer are governed by State statute and County investment policy. All investment instruments are those allowed by statute, which may include U.S. Treasury Notes, Federal Agencies, bankers’ acceptances, short-term commercial paper, money market account, and the State Treasurer’s Local Government Investment Pool (LGIP). There are no statutory regulatory oversight of the LGIP other than annual audits through the Washington State Auditor’s Office. The fair value of the County Shares in the LGIP is dollar for dollar equal to the value of pool shares. The LGIP offers 100% liquidity, therefore, all of these short term investments are considered cash equivalents and not subject to risk categorization.

The investment policy of the County Treasurer dictates that all investment instruments be transacted on delivery vs. payment basis. Wells Fargo acts as safekeeping agent for the Thurston County Treasurer.

Custodial credit risk – The County Treasurer limits its credit risk through diversification of security types and issuers. County policy further limits risk to investments in securities that have one of the three highest ratings of a national rating agency at the time of investment.

Fair Market Value – GASB 72 establishes a hierarchy of inputs to valuation techniques used to measure fair value. This hierarchy has three levels:

- Level 1 – Pricing inputs are observable inputs such as quoted prices, available in active markets, for identical assets on the measurement date;
- Level 2 - Pricing inputs are either directly or indirectly observable inputs available in active markets as of the measurement date; and
- Level 3 - Pricing inputs are unobservable inputs used in cases where financial instruments are considered illiquid, with no significant market activity and little or no pricing information on the date of measurement.

The Alliance considers all amounts on deposit in the TCIP as of December 31, 2017 to be cash and cash equivalents and are based on level 1 inputs with a fair value of \$48,261,256. The TCIP is not rated by a nationally recognized statistical rating organization (NRSRO) and has an effective duration of 1.47 years.

NOTE 3 – CAPITAL ASSETS AND DEPRECIATION

All capital assets are valued at historical cost or estimated cost, where historical cost is not known.

The Alliance capitalizes all land, buildings, improvements, and equipment purchased or donated in accordance with the Alliance’s Capital Asset Policy.

Any additions to existing capitalized equipment which increase its useful value are also capitalized as an enhancement to that equipment. Costs for additions or improvements to capital assets are capitalized when they increase the effectiveness or efficiency of the asset. Costs for normal maintenance and repairs are not capitalized.

Assets in each category are capitalized if they exceed the capitalization threshold and depreciation on all assets is provided on the straight-line basis over the useful lives, as shown in the following tables.

Category	Capitalization Threshold	Useful Life
Treatment Facility	\$50,000	25 – 50 years
Collection System	\$50,000	50 – 60 years
Any asset purchased with federal funds	\$5,000	5 – 60 years
Other Assets	\$5,000	5 – 20 years

Changes to the Alliance’s Capital Asset Policy

In 2017, the LOTT Board of Directors updated the Alliance’s Capital Asset Policy. All policy elements will be implemented prospectively. The most significant change to the Capital Asset Policy was to increase capitalization thresholds from a flat \$5,000 to the amounts shown previously in this note based on the category of asset.

Asset Category Reclassification

Additionally in 2017, the Budd Inlet Reclaimed Water Plant was reclassified as “Buildings and Improvements” from “Treatment Collection System.” This resulted in a change of \$6,350,000 in assets and \$5,438,870 in accumulated depreciation for the two affected categories, but had no effect on capital assets in total.

Interest Capitalization

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of the capital asset is included as part of the capitalized value of the assets constructed. During 2017, the Alliance incurred \$2,176,497 in interest costs, of which \$327,035 was included as part of the cost of capital assets under construction.

Capital asset activity for the year ended December 31, 2017 was as follows:

Asset	Beginning Balance	Increase	Decrease	Ending Balance
Capital assets not being depreciated:				
Land and Land Improvements	\$ 27,001,542	\$ 15,826	\$ 877,397	\$ 26,139,970
Construction in Progress	19,273,915	12,707,984	14,525,574	17,456,325
Total capital assets not being depreciated	\$ 46,275,457	\$ 12,723,810	\$ 15,402,971	\$ 43,596,296
Capital Assets being depreciated:				
Buildings and Improvements	\$ 205,826,661	\$ 19,665,123	\$ 6,350,000	\$ 219,141,784
Machinery and Equipment	2,273,366	493,917	27,451	2,739,832
Treatment Collection System	92,490,725	568,785	6,218,078	86,841,432
Total capital assets being depreciated	\$ 300,590,752	\$ 20,727,826	\$ 12,595,529	\$ 308,723,048
Less accumulated depreciation for:				
Buildings and Improvements	\$ (97,335,241)	\$ (8,754,795)	(5,438,870)	\$ (100,651,166)
Machinery and Equipment	(782,336)	(213,681)	(27,451)	(968,566)
Treatment Collection System	(25,466,859)	(2,227,161)	(3,109,039)	(24,584,981)
Total accumulated depreciation	\$ (123,584,437)	\$ (11,195,637)	\$ (8,575,361)	\$ (126,204,713)
Total capital assets being depreciated, net	\$ 177,006,315	\$ 9,532,189	\$ 4,020,169	\$ 182,518,335
Total capital assets, net	\$ 223,281,772	\$ 22,255,998	\$ 19,423,140	\$ 226,114,631

NOTE 4 - CONSTRUCTION IN PROGRESS

The following table details construction in progress activity as of December 31, 2017:

Project Name	Expended through 12/31/17
Biological Process Improvements	\$ 1,502,653
North Outfall Upgrade	229,522
Locker Room Upgrades	18,905
Tumwater 3 mgd Recharge & Conveyance	1,366,900
Martin Way Reclaimed Water Plant Improvements	1,082,254
Ultraviolet Disinfection Upgrades	281,992
Sludge Dewatering Upgrade	11,661,665
Capitol Lake Pump Station Odor Control	639,653
Digester Building Gas Valve Replacement	217,231
Lab Building Skylight Refurb	248,110
Engine Generator Replacement	51,246
Records Management System	156,193
Total	\$ 17,456,325

NOTE 5 - LONG-TERM DEBT

As of December 31, 2017, long-term debt consisted of the following:

Issue Name	Original Amount	Annual Installments	Final Maturity	Interest Rates	Balance 12/31/17
State of Washington Revolving Fund Loans:					
Hawks Prairie Reclaimed Water Facility	31,162,916	\$ 1,838,298	2027	1.5%	\$ 16,216,376
Deschutes Parkway Pipeline	1,086,346	73,944	2030	2.9%	769,862
Primary Sedimentation Basins	37,552,332	2,491,944	2033	2.6%	32,413,072
Reclaimed Water Tank	4,394,506	292,198	2035	2.6%	4,082,522
Public Works Trust Fund Loans:					
Secondary Clarifiers	4,278,404	230,077 - 238,089	2025	0.5%	1,831,458
Kaiser Road Pump Station	3,743,641	200,587 - 210,567	2028	0.5%	2,195,481
Primary Sedimentation Basins Construction	10,000,000	549,559 - 567,375	2031	0.5%	7,674,632
Revenue Bonds:					
2011 Revenue Bond *	32,800,000	0.3 to 3.3 million	2031	3.16%	20,905,000
Total Debt	\$ 125,018,145				\$ 86,088,402

* - Subject to federal arbitrage requirements

During the year ended December 31, 2017, the following changes occurred in long-term debt:

Issue Name	Beginning Balance 1/1/17	Increases	Decreases	Ending Balance 12/31/17	Due Within One Year
State of Washington Revolving Fund Loans:					
Hawks Prairie Reclaimed Water Facility	17,792,854	-	1,576,478	16,216,376	1,600,289
Deschutes Parkway Pipeline	820,240	-	50,378	769,862	51,858
Primary Sedimentation Basins	34,026,007	-	1,612,935	32,413,072	1,655,375
Reclaimed Water Tank	4,264,423	-	181,901	4,082,522	92,738
Public Works Trust Fund Loans:					
Secondary Clarifiers	2,060,390	-	228,932	1,831,458	228,932
Kaiser Road Pump Station	2,395,070	-	199,589	2,195,481	199,589
Primary Sedimentation Basins Construction	8,222,820	-	548,188	7,674,632	548,188
Revenue Bonds:					
2011 Revenue Bond	23,170,000		2,265,000	20,905,000	2,380,000
Total Debt	\$ 92,751,803	\$ -	\$ 6,663,402	\$ 86,088,402	\$ 6,756,969

The annual requirements to amortize all debts outstanding as of December 31, 2017, including principal and interest, are as follows.

Year Ending December 31st	Bonds			Year Ending December 31st	Loans		
	Bond Principal	Bond Interest	Bond Total		Loan Principal	Loan Interest	Loan Total
2018	2,380,000	876,500	3,256,500	2018	4,376,969	1,189,348	5,566,317
2019	2,500,000	754,500	3,254,500	2019	4,542,609	1,166,293	5,708,902
2020	2,615,000	639,700	3,254,700	2020	4,618,392	1,087,897	5,706,289
2021	2,735,000	519,025	3,254,025	2021	4,695,898	1,005,978	5,701,876
2022	1,945,000	402,025	2,347,025	2022	4,775,170	923,193	5,698,363
2023-2027	4,455,000	1,335,900	5,790,900	2023-2027	23,752,718	3,310,531	27,063,249
2028-2032	4,275,000	364,038	4,639,038	2028-2032	15,139,871	1,372,744	16,512,615
	20,905,000	4,891,688	25,796,688	2033-2035	3,281,775	86,763	3,368,538
					65,183,401	10,142,746	75,326,148

Items related to 2011 Bond Issue

Annualized interest expense is decreased by amortization of debt premium and is amortized over the 20 year life of the bond. As of December 31, 2017, the unamortized debt premium is \$1,905,139. Deferred Loss on Refunding represents the unamortized portion of the difference between the amount which was due on the refunded debt and the amount which was required to be put in escrow to make future payments. It is amortized over the 11 years that the refunded debt would have been outstanding.

At December 31, 2017, the Alliance had \$2,842,182 in cash reserves as required by bond indentures.

NOTE 6 - PENSION PLAN

The following table represents the aggregate pension amounts for all plans subject to the requirements of GASB 68, *Accounting and Financial Reporting for Pensions* for the year 2017.

Aggregate Pension Amounts - All Plans	
Pension liabilities	\$4,547,137
Deferred outflows of resources	\$757,285
Deferred inflows of resources	\$1,003,984
Pension expense	\$193,398

State Sponsored Pension Plans

Substantially all of the Alliance’s full-time and qualifying part-time employees participate in one of the following statewide retirement systems administered by the Washington State Department of Retirement Systems, under cost-sharing multiple-employer public employee defined benefit and defined contribution retirement plans. The state Legislature establishes and amends laws pertaining to the creation and administration of all public retirement systems.

The Department of Retirement Systems (DRS), a department within the primary government of the State of Washington, issues a publicly available comprehensive annual financial report (CAFR) that includes financial statements and required supplementary information for each plan. The DRS CAFR may be obtained by writing to: Department of Retirement Systems, Communications Unit, P.O. Box 48380, Olympia, WA 98504-8380; or it may be downloaded from the DRS website at www.drs.wa.gov.

Public Employees’ Retirement System (PERS)

PERS members include elected officials, state employees, employees of the Supreme, Appeals, and Superior Courts, employees of the legislature, employees of district and municipal courts, employees of local governments, and higher education employees not participating in higher education retirement programs. PERS is comprised of three separate pension plans for membership purposes. PERS plans 1 and 2 are defined benefit plans, and PERS plan 3 is a defined benefit plan with a defined contribution component.

PERS Plan 1 - Description

PERS Plan 1 provides retirement, disability and death benefits. Retirement benefits are determined as two percent of the member’s average final compensation (AFC) times the members’ years of service. The AFC is the average of the member’s highest 24 consecutive service months. Members are eligible for retirement from active status at any age with at least 30 years of service, at age 55 with at least 25 years of services, or at age 60 with at least five years of service. Members retiring from active status prior to the age of 65 may receive actuarially reduced benefits. Retirement benefits are actuarially reduced to reflect the choice of a survivor

benefit. Other benefits include duty and non-duty disability payments, an optional cost-of-living adjustment (COLA), and a one-time duty-related death benefit, if found eligible by the Department of Labor and Industries. PERS 1 members were vested after the completion of five years of eligible service. The plan was closed to new entrants on September 30, 1977.

PERS Plan 1 - Contributions

The PERS Plan 1 member contribution rate is established by State statute at 6%. The employer contribution rate is developed by the Office of the State Actuary and includes an administrative expense component that is currently set at 0.18%. Each biennium, the state Pension Funding Council adopts Plan 1 employer contribution rates. The PERS Plan 1 required contribution rates (expressed as a percentage of covered payroll) for 2017 were as follows:

Actual Contributions Rates	Employer	Employee
<u>January - June 2017:</u>		
PERS Plan 1	6.23%	6.00%
PERS Plan 1 UAAL	4.77%	
Administrative Fee	0.18%	
Total	11.18%	6.00%
<u>July - December 2017:</u>		
PERS Plan 1	7.49%	6.00%
PERS Plan 1 UAAL	5.03%	
Administrative Fee	0.18%	
Total	12.70%	6.00%

PERS Plan 2/3 - Description

PERS Plan 2/3 provides retirement, disability and death benefits. Retirement benefits are determined as two percent of the member’s average final compensation (AFC) times the member’s years of service for Plan 2 and 1 percent of AFC for Plan 3. The AFC is the average of the member’s 60 highest-paid consecutive service months. There is no cap on years of service credit. Members are eligible for retirement with a full benefit at 65 with at least five years of service credit. Retirement before age 65 is considered an early retirement. PERS Plan 2/3 members who have at least 20 years of service credit and are 55 years of age or older, are eligible for early retirement with a benefit that is reduced by a factor that varies according to age for each year before age 65. PERS Plan 2/3 members who have 30 or more years of service credit and are at least 55 years old can retire under one of two provisions:

- With a benefit that is reduced by three percent for each year before age 65; or
- With a benefit that has a smaller (or no) reduction (depending on age) that imposes stricter return-to-work rules.

PERS Plan 2/3 members hired on or after May 1, 2013 have the option to retire early by accepting a reduction of five percent for each year of retirement before age 65. This option is available only to those who are age 55 or older and have at least 30 years of service credit. PERS Plan 2/3 retirement benefits are also actuarially reduced to reflect the choice of a survivor benefit. Other PERS Plan 2/3 benefits include duty and non-duty disability payments, a cost-of-living allowance (based on the CPI), capped at three percent annually and a one-time duty related death benefit, if found eligible by the Department of Labor and Industries. PERS 2 members are vested after completing five years of eligible service. Plan 3 members are vested in the defined benefit portion of their plan after ten years of service; or after five years of service if 12 months of that service are earned after age 44.

PERS Plan 3 defined contribution benefits are totally dependent on employee contributions and investment earnings on those contributions. PERS Plan 3 members choose their contribution rate upon joining membership and have a chance to change rates upon changing employers. As established by statute, Plan 3 required defined

contribution rates are set at a minimum of 5 percent and escalate to 15 percent with a choice of six options. Employers do not contribute to the defined contribution benefits. PERS Plan 3 members are immediately vested in the defined contribution portion of their plan.

Plan 2/3 - Contributions

The PERS Plan 2/3 employer and employee contribution rates are developed by the Office of the State Actuary to fully fund Plan 2 and the defined benefit portion of Plan 3. The Plan 2/3 employer rates include a component to address the PERS Plan 1 UAAL and an administrative expense that is currently set at 0.18%. Each biennium, the state Pension Funding Council adopts Plan 2 employer and employee contribution rates and Plan 3 contribution rates. The PERS Plan 2/3 required contribution rates (expressed as a percentage of covered payroll) for 2017 were as follows:

Actual Contributions Rates	Employer 2/3	Employee (2 only)
<u>January - June 2017</u>		
PERS Plan 2/3	6.23%	6.12%
PERS Plan 1 UAAL	4.77%	
Administrative Fee	0.18%	
Employee PERS Plan 3		varies
Total	11.18%	6.12%
<u>July - December 2017:</u>		
PERS Plan 1	7.49%	7.38%
PERS Plan 1 UAAL	5.03%	
Administrative Fee	0.18%	
Total	12.70%	7.38%

The employee contribution to Plan 3 varies depending on the contribution rate chosen by the employee.

The Alliance’s actual PERS plan contributions were \$330,105 to Plan 1 and 459,937 to Plan 2/3, for the year ended December 31, 2017.

Actuarial Assumptions

The total pension liability (TPL) for each of the DRS plans was determined using the most recent actuarial valuation completed in 2017 with a valuation date of June 30, 2016. The actuarial assumptions used in the valuation were based on the results of the Office of the State Actuary’s (OSA) 2007-2012 Experience Study and the 2015 Economic Experience Study.

Additional assumptions for subsequent events and law changes are current as of the 2016 actuarial valuation report. The TPL was calculated as of the valuation date and rolled forward to the measurement date of June 30, 2017. Plan liabilities were rolled forward from June 30, 2016, to June 30, 2017, reflecting each plan’s normal cost (using the entry-age cost method), assumed interest and actual benefit payments.

- Inflation: 3.0% total economic inflation; 3.75% salary inflation
- Salary increases: In addition to the base 3.75% salary inflation assumption, salaries are also expected to grow by promotions and longevity.
- Investment rate of return: 7.5%

Mortality rates were based on the RP-2000 report’s Combined Healthy Table and Combined Disabled Table, published by the Society of Actuaries. The OSA applied offsets to the base table and recognized future improvements in mortality by projecting the mortality rates using 100 percent Scale BB. Mortality rates are applied on a generational basis; meaning, each member is assumed to receive additional mortality improvements in each future year throughout his or her lifetime.

There were changes in methods and assumptions since the last valuation:

- How terminated and vested member benefits are valued was corrected
- How basic minimum COLA in PERS Plan 1 is valued for legal order payees was improved.
- The average expected remaining service lives calculation was revised.

Discount Rate

The discount rate used to measure the total pension liability for all DRS plans was 7.5 percent.

To determine that rate, an asset sufficiency test included an assumed 7.7 percent long-term discount rate to determine funding liabilities for calculating future contribution rate requirements. Consistent with the long-term expected rate of return, a 7.5 percent future investment rate of return on invested assets was assumed for the test. Contributions from plan members and employers are assumed to continue being made at contractually required rates (including PERS 2/3 employers, whose rates include a component for the PERS 1 plan liability). Based on these assumptions, the pension plans’ fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return of 7.5 percent was used to determine the total liability.

Long-Term Expected Rate of Return

The long-term expected rate of return on the DRS pension plan investments of 7.5 percent was determined using a building-block-method. In selecting this assumption, the Office of the State Actuary (OSA) reviewed the historical experience data, considered the historical conditions that produced past annual investment returns, and considered capital market assumptions and simulated expected investment returns provided by the Washington State Investment Board (WSIB). The WSIB uses the capital market assumptions and their target asset allocation to simulate future investment returns at various time horizons.

Estimated Rates of Return by Asset Class

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan’s target asset allocation as of June 30, 2017, are summarized in the table below. The inflation component used to create the table is 2.2 percent and represents the WSIB’s most recent long-term estimate of broad economic inflation.

Asset Class	Target Allocation	% Long-Term Expected Real Rate of Return Arithmetic
Fixed Income	20%	1.70%
Tangible Assets	5%	4.90%
Real Estate	15%	5.80%
Global Equity	37%	6.30%
Private Equity	23%	9.30%
	100%	

Sensitivity of Net Pension Liability

The table below presents the Alliance’s proportionate share of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the Alliance’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.5 percent) or 1-percentage point higher (8.5 percent) than the current rate.

Plan	1% Decrease (6.5%)	Current Discount Rate (7.5%)	1% Increase (8.5%)
PERS 1	2,852,576	2,341,649	1,899,076
PERS 2/3	5,941,814	2,205,488	(855,878)

Pension Plan Fiduciary Net Position

Detailed information about the State’s pension plans’ fiduciary net position is available in the separately issued DRS financial report.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the Alliance reported a total pension liability of \$4,547,137 for its proportionate share of the net pension liabilities as follows :

Plan	Liability
PERS 1	\$2,341,649
PERS 2/3	2,205,488

At June 30, 2017 the Alliances proportionate share of the collective net pension liabilities was as follows:

Plan	Proportionate Share 6/30/16	Proportionate Share 6/30/17	Change in Proportion
PERS 1	0.054966%	0.049349%	(0.005617%)
PERS 2/3	0.070435%	0.063476%	(0.006959%)

Employer contribution transmittals received and processed by the DRS for the fiscal year ended June 30 are used as the basis for determining each employer’s proportionate share of the collective pension amounts reported by the DRS in the *Schedules of Employer and Nonemployer Allocations* for both PERS Plan 1 and PERS Plan 2/3.

The collective net pension liability was measured as of June 30, 2017, and the actuarial valuation date on which the total pension liability is based was as of June 30, 2016, with update procedures used to roll forward the total pension liability to the measurement date.

Pension Expense

For the year ended December 31, 2017, the Alliance recognized pension expense as follows:

Plan	Pension Expense
PERS 1	(\$138,102)
PERS 2/3	331,500

Deferred Outflows of Resources and Deferred Inflows of Resources

At December 31, 2017, the Alliance reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources.

PERS Plan 1	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ -
Net difference between projected and actual investment earnings on pension plan investments	\$ -	\$ (87,384)
Changes of assumptions	\$ -	\$ -
Changes in proportion and differences between contributions and proportionate share of contributions	\$ -	\$ -
Contributions subsequent to the measurement date	\$ 157,687	\$ -
TOTAL	\$ 157,687	\$ (87,384)

PERS Plan 2/3	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 223,468	\$ (72,535)
Net difference between projected and actual investment earnings on pension plan investments	\$ -	\$ (587,930)
Changes of assumptions	\$ 23,426	\$ -
Changes in proportion and differences between contributions and proportionate share of contributions	\$ 117,960	\$ (256,135)
Contributions subsequent to the measurement date	\$ 234,744	\$ -

TOTAL	\$ 599,598	\$ (916,600)
-------	------------	--------------

Deferred outflows of resources related to pensions resulting from the Alliance’s contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2018. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31:	PERS Plan 1	PERS Plan 2/3
2018	\$ (59,066)	\$ (220,159)
2019	\$ 18,648	\$ 76,669
2020	\$ (4,330)	\$ (83,323)
2021	\$ (42,636)	\$ (277,123)
2022	\$ -	\$ (20,786)
Thereafter	\$ -	\$ (27,022)
Total	\$ (87,384)	\$ (551,745)

Changes in Net Pension Liability

Net Pension Liability decreased by \$1,951,143 from \$6,498,280 in 2016 to \$4,547,137 in 2017.

NOTE 7 – ASSOCIATION OF WASHINGTON CITIES EMPLOYEE BENEFIT TRUST

The Alliance is a member of the Association of Washington Cities Employee Benefit Trust Health Care Program (AWC Trust HCP). Chapter 48.62 RCW provides that two or more local government entities may, by Interlocal agreement under Chapter 39.34 RCW, form together or join a pool or organization for the joint purchasing of insurance, and/or joint self-insurance, to the same extent that they may individually purchase insurance, or self-insure.

An agreement to form a pooling arrangement was made pursuant to the provisions of Chapter 39.34 RCW, the Interlocal Cooperation Act. The AWC Trust HCP was formed on January 1, 2014 when participating cities, towns, and non-city entities of the AWC Employee Benefit Trust in the State of Washington joined together by signing an Interlocal Governmental Agreement to jointly self-insure certain health benefit plans and programs for participating employees, their covered dependents and other beneficiaries through a designated account within the Trust.

As of December 31, 2017, 261 cities, towns, and non-city entities participate in the AWC Trust HCP.

The AWC Trust HCP allows members to establish a program of joint insurance and provides health and welfare services to all participating members. The AWC Trust HCP pools claims without regard to individual member experience. The pool is actuarially rated each year with the assumption of projected claims run-out for all current members. The AWC Trust HCP includes medical insurance through Group Health, Regence BlueShield and Asuris Northwest Health, dental insurance through Delta Dental of Washington, and vision insurance through Vision Service Plan. Eligible members are cities and towns within the state of Washington. Non-City Entities (public agency, public corporation, intergovernmental agency, or political subdivision within the state of Washington) are eligible to apply for coverage into the AWC Trust HCP, submitting application to the Board of Trustees for review as required in the Trust Agreement.

Participating employers pay monthly premiums to the AWC Trust HCP. The AWC Trust HCP is responsible for payment of all covered claims. In 2017, the AWC Trust HCP purchased stop loss insurance for Regence/Asuris plans at an Individual Stop Loss (ISL) of \$1.5 million through Life Map, and Kaiser ISL at \$1 million with Companion Life through ASG Risk Management. The aggregate policy is for 200% of expected medical claims.

Participating employers contract to remain in the AWC HCP for a minimum of three years. Participating employers with over 250 employees must provide written notice of termination of all coverage a minimum of 12 months in advance of the termination date, and participating employers with under 250 employees must provide

written notice of termination of all coverage a minimum of 6 months in advance of termination date. When all coverage is being terminated, termination will only occur on December 31. Participating employers terminating a group or line of coverage must notify the HCP a minimum of 60 days prior to termination. A participating employer's termination will not obligate that member to past debts, or further contributions to the HCP. Similarly, the terminating member forfeits all rights and interest to the HCP Account.

The operations of the Health Care Program are managed by the Board of Trustees or its delegates. The Board of Trustees is comprised of four regionally elected officials from Trust member cities or towns, the Employee Benefit Advisory Committee Chair and Vice Chair, and two appointed individuals from the AWC Board of Directors, who are from Trust member cities or towns.

The Trustees or its appointed delegates review and analyze Health Care Program related matters and make operational decisions regarding premium contributions, reserves, plan options and benefits in compliance with Chapter 48.62 RCW. The Board of Trustees has decision authority consistent with the Trust Agreement, Health Care Program policies, Chapter 48.62 RCW and Chapter 200-110-WAC.

The accounting records of the Trust HCP are maintained in accordance with methods prescribed by the State Auditor's office under the authority of Chapter 43.09 RCW. The Trust HCP also follows applicable accounting standards established by the Governmental Accounting Standards Board ("GASB"). Year-end financial reporting is done on an accrual basis and submitted to the Office of the State Auditor as required by Chapter 200-110 WAC. The audit report for the AWC Trust HCP is available from the Washington State Auditor's office.

NOTE 8 - RISK MANAGEMENT

The LOTT Clean Water Alliance is a member of the Washington Cities Insurance Authority (WCIA).

Utilizing Chapter 48.62 RCW (self-insurance regulation) and Chapter 39.34 RCW (Interlocal Cooperation Act), nine cities originally formed WCIA on January 1, 1981. WCIA was created for the purpose of providing a pooling mechanism for jointly purchasing insurance, jointly self-insuring, and/or jointly contracting for risk management services. WCIA has a total of 161 Members.

New members initially contract for a three-year term, and thereafter automatically renew on an annual basis. A one-year withdrawal notice is required before membership can be terminated. Termination does not relieve a former member from its unresolved loss history incurred during membership.

Liability coverage is written on an occurrence basis, without deductibles. Coverage includes general, automobile, police, public officials' errors or omissions, stop gap, and employee benefits liability. Limits are \$4 million per occurrence in the self-insured layer, and \$21 million in the re-insured excess layer. Total limits are \$25 million per occurrence subject to aggregates and sublimits. The Board of Directors determines the limits and terms of coverage annually.

Insurance for property, automobile physical damage, fidelity, inland marine, and boiler and machinery coverage are purchased on a group basis. Various deductibles apply by type of coverage. Property coverage is self-funded from the members' deductible to \$750,000, for all perils other than flood and earthquake, and insured above that to \$300 million per occurrence subject to aggregates and sublimits. Automobile physical damage coverage is self-funded from the members' deductible to \$250,000 and insured above that to \$100 million per occurrence subject to aggregates and sublimits.

In-house services include risk management consultation, loss control field services, and claims and litigation administration. WCIA contracts for the claims investigation consultants for personnel issues and land use problems, insurance brokerage, actuarial and lobbyist services.

WCIA is fully funded by its members, who make annual assessments on a prospectively rated basis, as determined by an outside, independent actuary. The assessment covers loss, loss adjustment, and administrative expenses. As outlined in the interlocal agreement, WCIA retains the right to additionally assess the membership for any funding shortfall.

An investment committee, using investment brokers, produces additional revenue by investment of WCIA's assets in financial instruments which comply with all State guidelines.

A Board of Directors governs WCIA, which is comprised of one designated representative from each member. The Board elects an Executive Committee and appoints a Treasurer to provide general policy direction for the organization. The WCIA Executive Director reports to the Executive Committee and is responsible for conducting the day to day operations of WCIA.

Settlements

In the past three years, there have been no settlements that exceeded insurance coverage.

NOTE 9 - CONTINGENCIES AND LITIGATION

The Alliance has recorded in its financial statements all material liabilities, including an estimate for situations which are not yet resolved but where, based on available information, management believes it is probable that the Alliance will have to make payment. In the opinion of management, the Alliance's insurance policies and/or self-insurance reserves are adequate to pay all known or pending claims.

The Alliance participates in a number of federal and state-assisted programs. These grants are subject to audit by the grantors or their representatives. Such audits could result in requests for reimbursement to grantor agencies for expenses disallowed under the terms of the grants. Management believes that such disallowances, if any, would be immaterial.

NOTE 10 - MATERIAL RELATED PARTY TRANSACTIONS

The Alliance was formed by an interlocal agreement by Thurston County and the cities of Olympia, Lacey and Tumwater. Substantially all the Alliance's revenues come from wastewater charges (Wastewater Service Charge) and connection charges (Capacity Development Charge) collected by the cities of Olympia, Lacey and Tumwater and remitted to the Alliance. As of December 31, 2017, the Alliance held short-term receivables in the following amounts:

Account	Amount
Olympia	\$1,293,653
Lacey	\$1,119,535
Tumwater	\$453,479

All of the receivables listed above were collected in January 2018.

NOTE 11 - SUBSEQUENT EVENTS

In April 2018, the Alliance made the first draw in the amount of \$537,551 on a State Revolving Fund loan with the Washington State Department of Ecology. This loan was awarded in 2017 in the amount for \$2.01 million with a 2% annual interest rate to provide funding for the design of the Biological Process Improvements project.

NOTE 12 - CAPACITY DEVELOPMENT CHARGE REBATE

As part of the 2017-2018 Budget, the Board of Directors created a pilot rebate program to encourage property owners with septic systems to hook up to the LOTT system. The pilot program's goal is two-fold: reduce nutrient to LOTT's receiving waters by providing a higher level of treatment than septic systems can provide, and gauge the effectiveness of such a program, including the financial benefits to existing LOTT ratepayers. Eligible participants in the pilot program can receive a rebate of between 50% and 75% of the Capacity Development Charge, depending on income. In 2017, the pilot program funded rebates totaling \$193,602.

Required Supplementary Information
Schedule of Proportionate Share of the Net Pension Liability, PERS Plan 1
As of June 30, Last 10 Fiscal Years

	2017	2016	2015
Employer's proportion of the net pension liability (asset)	0.049349%	0.054966%	0.051213%
Employer's proportionate share of the net pension liability	\$ 2,341,649	\$ 2,951,933	\$ 2,678,916
TOTAL	\$ 2,341,649	\$ 2,951,933	\$ 2,678,916
Employer's covered employee payroll	\$ 6,223,189	\$ 6,576,015	\$ 5,635,191
Employer's proportionate share of the net pension liability as a percentage of covered employee payroll	37.63%	44.89%	47.54%
Plan fiduciary net position as a percentage of the total pension liability	61.24%	57.03%	59.10%

Notes To the Schedule of Proportionate Share of the Net Pension Liability, PERS Plan 1

Note 1

The Alliance does not currently have any employees who are members of PERS Plan 1. However, the Alliance is responsible for its proportionate share of the PERS Plan 1 unfunded actuarial accrued liability (UAAL). The Washington State Department of Retirement Systems assesses a fee based on all covered payroll for PERS Plan 2/3 to assist in funding the UAAL.

Note 2

GASB 68 was implemented by the Alliance in 2015. As such, only information from 2015 onwards is available for this schedule.

Required Supplementary Information

Section III

Statistical

Introduction

Data Sources and Information

This statistical section was compiled using publically available information from the Bureau of Economic Analysis, Washington State Office of Financial Management, Washington State Employment Securities Division and the Thurston Regional Planning Commission.

The Alliance's service area is comprised of the urban growth area (UGA) of Lacey, Olympia, and Tumwater. However, since the statistical information required in this report is not consistently available for only the UGA, statistics for Thurston County as a whole are used.

Financial Data

Unless otherwise noted, all data is for the year starting January 1 and ending December 31.

Equivalent Residential Units

Each city's wastewater utility is responsible for billing customers and remitting \$37.88 per Equivalent Residential Unit (ERU) to the Alliance. An ERU is defined as 900 ft³ of wastewater per month, or 221 gallons per day. Each single-family home counts as one ERU. For multi-family housing, each living unit is counted as 7/10 of an ERU. Commercial and industrial dischargers are billed according to water consumption and mathematically converted to ERUs.

Objectives

This section is designed to meet five objectives: Providing information on financial trends; providing information on revenue capacity; providing information on debt capacity; providing demographic and economic information and providing operating information. The following data is presented:

Financial Trend Data: A ten year trend is shown on the components of net position and changes in net position.

Revenue Capacity Data: Information about the Alliance's revenue base, rates, and principal rate payers for ten years.

Debt Capacity Data: Ratios of outstanding debt and pledged-revenue coverage for ten years.

Operating Information: Number of employees, operating indicators and capital assets for ten years.

Demographic and Economic Information: Applicable Thurston County demographics, ERUs, new connections, average daily flow, capital asset information, and principal employers for ten years.

Revenue Base Information

The Alliance’s largest revenue source is the Wastewater Service Charge (WSC). The Alliance provides wholesale wastewater treatment and has three main customers – the cities of Olympia, Lacey and Tumwater. Thurston County, while an equal partner in the Alliance, does not have any rate payers.

ERUs and Revenue by Customer

Year	Lacey	Olympia	Tumwater	Total	WSC Rate	Revenue
2008	225,938	294,253	98,636	618,827	27.00	16,708,329

The vast majority of the Alliance’s capital assets are comprised of land and equipment used in the treatment process, such as buildings, pumps, tanks and drive motors. Most of these assets are located at the Budd Inlet Treatment Plant, with the remainder at our Martin Way Reclaimed Water Plant, Hawks Prairie Ponds, Capitol Lake Pump Station, Kaiser Road Pump Station and Martin Way Pump Station.
